**4 PLAYERS** 

CONTINUOUS MUSIC

TREASURE COVE requires your scuba diver to descend to the

sea floor and bring treasures back to your diving boat slowly circling above, before his air runs out. Simple enough, except for the killer fish, squid, crab, etc., that roam about - and the ever present octopus that guards the treasure!

As you clear each treasure-laden area, you move to a new spot, with more valuable treasures - and more denizens of the deep. Twenty screens in all.

Tournament Level for uniform competitive play.

• ORDERING INFORMATION: Please send check or money order at the rate of \$30 for each cartridge wanted (plus 1.92 each if you live in California).

 Canadian orders can be filled using Canadian currency at the rate of CAN \$36 per cartridge.
