BALLY PROGRAM LISTING

HERB WEINTRAUB
205 North Tradd St.
Statesville, NC 28677

August 3, 1979

Dear Bob,

In response to your questions on page 55:

1. Yes
2. (see number 1 - prefer full capacity)
3. YES - most definitely - would like to place my order now for a completely assembled unit.
4. Model number is "BL 1200"
5. Serial number is "279"

How many subscribers do you currently have? If you are interested in increasing the number I suggest you place an ad in Popular Science magazine since that is where JS&A originally advertised.

Since I barely have enough time to devote to the computer what with the constant demands of the printing business, I would like to know if anyone is working on any business related programs or if anyone out there would be interested in programming some for me? I would, of course, pay for such a feat.

I have enjoyed the newsletter these past months, keep up the good work.
