# MESS Keyboard Stickers for Astrocade Emulation

By Adam Trionfo

February 15, 2011

Print onto quality paper and then apply to keyboard. I suggest printing onto sticker-paper, but that is not required. Sticker paper does make adding the stickers easier.

The keypad stickers may be applied to any keys after the keyboard is mapped in MESS. I find that mapping the keys as a 4x6 column (just like on the Bally/Astrocade Keypad) works extremely well. Here is how my keyboard is set-up:

Enjoy!
